

**Product Certificate of Analysis**

|  |                          |
|--|--------------------------|
| <b>Product name: Magnesium Gluconate</b> | <b>AC code: AC022151</b> |
|--|--------------------------|

| <b>Technical Data Sheet</b> |                                    |                           |
|-----------------------------|------------------------------------|---------------------------|
| PRODUCTION DATE             | 2026.01.30                         |                           |
| INSPECTION DATE             | 2026.01.30                         |                           |
| EXPIRY DATE                 | 2028.01.29                         |                           |
| PACKAGE                     | 25kg/package                       |                           |
| CAS number                  | 3632-91-5                          |                           |
| HS                          | 2918160000                         |                           |
| QUANTITY                    | 20T                                |                           |
| <b>Typical Analysis</b>     |                                    |                           |
| INSPECTION ITEM             | QUALITY STANDARD                   | RESULT                    |
| APPEARANCE                  | White particles or powder,Odorless | White particles, Odorless |
| Content, w/%                | 98.0~102.0                         | 100.10                    |
| Magnesium Content, w/%      | 5.05-5.8                           | 5.71                      |
| water, w/%                  | ≤12.0                              | 8.13                      |
| PH                          | 6.0~7.8                            | 6.59                      |
| reducing substances, w/%    | ≤1.0                               | 0.07                      |
| Chloride, w/%               | ≤0.05                              | ≤0.01                     |
| sulphate, w/%               | ≤0.05                              | ≤0.01                     |
| Pb (mg/kg)                  | ≤1                                 | ≤1                        |
| As (mg/kg)                  | ≤1                                 | ≤1                        |
| <b>CONCLUSION:Qualified</b> |                                    |                           |
